

“I would like to thank each of you for the generous award afforded to our family through the Phi Beta Kappa Scholarship. I was thrilled (and equally honored) when I received the e-mail informing me that I was selected to receive this prestigious scholarship.

I have recently completed two summer sessions at ASU and just began my senior year. The award you have so graciously provided will enable me to focus my efforts on my studies, as well as assisting individuals within the special needs community, and – most importantly, being a fabulous mother to my two wonderful children.

Again, I appreciate your support and will most certainly work hard to make you all proud of your selection. It is committee members and donors such as you who inspire others like me to give back to future students upon entering the work force.”
